The National Breast Cancer Coalition’s (NBCC) mission is to end breast cancer through the power of action and advocacy. In 2010, NBCC set a deadline and launched a plan of action to know how to end breast cancer by January 1, 2020—**Breast Cancer Deadline 2020®**. NBCC increases funding for innovative breast cancer research; monitors how research funds are spent; expands access to quality health care for all; and ensures that trained advocates influence all decision making in breast cancer.
